Integrated Antimicrobial Stewardship – Our Global Iron Dome to Fight AMR

8th October 2026

This workshop highlights the indispensable synergy between the Microbiology laboratory and Antimicrobial Stewardship Programs (AMSP). It addresses how the implementation of rapid diagnostics and precise susceptibility reporting serves as the operational backbone of ASPs, enabling timely therapeutic adjustments and more effective management of resistant pathogens.

WORKSHOP DETAILS

Theme: Integrated Antimicrobial Stewardship –
Our Global Iron Dome to Fight AMR

Date: October 8th, 2026

Venue: Auditorium Building, Adesh Institute of
Medical Sciences and Research (AIMSR),
Bathinda, Punjab

Architect of Precision Microbiology: Conducted
by Dr. Sumit Rai, Professor and Head, Department
of Clinical Microbiology, AIIMS Mangalagiri.

LEARNING OBJECTIVES

- **Diagnostic Stewardship:** Learn how to use the lab effectively to guide bedside decisions.
- **Clinical Correlation:** Master the art of "de-escalation" and "surgical prophylaxis" protocols.
- **Policy to Practice:** Learn how to set up an Antimicrobial Subcommittee in your own facility.
- **Case-Based Learning:** Interactive sessions focusing on multi-drug resistant (MDR) organism management.
